## *Sisu Madiya Project – Badulla District*

---

### What is this Project?

Neluwa Tamil Vidyalaya and Kinross Tamil Vidyalaya in Bandarawela are schools that serve poor and underprivileged students in the rural areas of Neluwa and Bandarawela, Sri Lanka. Most of them are coming from economically deprived families who live in estates. We aim to support those two schools with the essential resources necessary for children's education.

### What is the Impact of This Project?

We anticipate that this support, with the educational gear and stationary, will aid underprivileged students in overcoming challenges and achieving a brighter future. We plan to donate these items parallel to the Thai Pongal Day celebration, which will fall on 15<sup>th</sup> January 2024.

## Sustainability

The support will be a good gesture to the kids who are coming from economically deprived family backgrounds in the estate sector. The school will continue its excellent work educating children and utilizing support while Sasnaka Sansada members conduct Ganitha Saviya seminars periodically at the school, ensuring continued engagement.
